ABOUT GHC

We're an international services and solutions organization with a global presence specialized in Human Capital Management (HCM)

In addition of our SAP and Success Factors business focuses, GHC has service lines specializing in software quality assurance, application management support, global payroll projects, global HCM integration, business payroll processes, change management.

GHC AMS

AMS plays a key role for a long term success of your HCM solution.

Our Application Management Services help you get a flexible, tailored service customized from the SAP HCM and SuccessFactors catalog, supporting multi-site, multi-lingual and global operations with 24/7 coverage across various time zones from our Center of excellence.

SOLUTION HIGHLIGHT

GHC Application Management Support solution:
- T2AMS – a methodology for AMS. A proven, clear set of deliverables and milestones (T2AMS) to welcome the projects after their implementation. A new governance will support this period with scheduled meetings and visible KPIs, Robust support, governance and transition methodology
- Regional AMS Team: Experimented consultants (speaking English and local language).
- Flexible support approach: SLA based, Shared Resource pools, Dedicated resources, Bucket of hours ,on-demand and other
         Flexible global delivery: Right shoring (on-site/off-site/off-shore/near-shore)
         Flexible engagement models (Managed Capacity, Managed Services) and Right Talent
