## ABOUT GHC

We're an international services and solutions organization with a global presence specialized in Human Capital Management (HCM)

## PROJECT MANAGER OFFICE AS A SERVICE

Whether your scope is a change of a post payroll provider in a small headcount location, a new payroll engine for a country, a new outsourced payroll provider for a region or a global payroll platform roll out, we will work together to build your customize level of service (workload, profiles, languages per week, per month) to lead your organization during this change and secure smooth go-live and transition periods.

## SOLUTION HIGHLIGHT

To reach the final line on time and on budget, an efficient governance must be setup. The GHC Project Manager will insure the quality in all daily activities of your HCM project. A clear project reporting, visible communication channels, a change managed, a definition of duties for all project members, a escalation path shared and approved, based on our proven methodology delivered by our shared PMO will secure your journey till the end of the stabilization period.

In addition of our SAP and Success Factors business focuses, GHC has service lines specializing in software quality assurance, application management support, global payroll projects, global HCM integration, business payroll processes, change management.
